

35t/50t PRESS

- small but strong -

Fit your needs

Various machines and equipment as well as individual solutions for the manufacture of:

HIGH SECURITY CAR LICENSE PLATES

application of reflective sheeting with colour graphic designs, emblems, holograms, laser-buried imprinting, security marks, all of quality for exterior use according to DIN 74069 and ISO 7591.

230 V

voltage information available on request

10 sec.

production run

The press is a strong stable steel-beam welded construction with a maximum 50 t load using an average of 35 t for each production run. In combination with WG embossing tools you are able to produce two plates simultaneously.

2 plates

simultaneously

The hydraulic unit is maintenance-free and can be completely removed and installed in a few minutes. The unit works using a two step pump and is extremely quiet.
